Self-Projects

<i>Project Name</i>	<i>Description</i>	<i>Technologies Used</i>	<i>Challenges Faced</i>	<i>Explanation</i>
<i>Miao Image</i>	A custom image file type	Python, compression	Reading miao files due to all the compression	Miao image gets each pixel of a pre-existing image file and saves the pixel data to a file that is later compressed with zlib .
<i>SnapFox</i>	A web extension that changes snap.berkely.edu theme to dark	HTML, CSS, JS		The snap forum had a dark mode which users loved and wanted on the main website. So, I made this extension that injects a custom CSS file that applies a dark theme.
